

**Chair**

**Shaun Castillo**

Preferred Technologies, LLC | President

As President of Pref-Tech, Shaun is responsible for everything Pref-Tech does and fails to do. He takes great pride in leading the exceptional men and women of Pref-Tech that, daily, strive hard to satisfy our customers, provide the highest-quality solutions, and steadily improve Pref-Tech’s role in the market.

Shaun served as Pref-Tech’s Vice President of Operations for four years before becoming the company’s President in 2009. Prior to Pref-Tech, Shaun served as an officer in the United States Army until he was Honorably Discharged in July of 2005. During his tenure, he held various positions as a Field Artillery Officer stationed in Fort Sill, OK; Fort Carson, CO; and Fort Chaffee, AR. His service also includes a year of combat operations in Iraq during Operation Iraqi Freedom. Shaun is a 2000 graduate of the United States Military Academy at West Point.

**Committee Members**

**Mike Barbagelata**

McMillan Security Systems, Inc. | President & CEO

Michael Barbagelata is a veteran of the security industry. After graduating from University of San Francisco with a communications degree, Michael started his career more than 35 years ago. Michael has worked in the field, as a service technician, service manager, project manager, regional manager, vice president and now continues his path as president and CEO of McMillan Security Systems, Inc., a San Francisco based, union security systems integrator.

Michael remains closely involved in the company’s largest projects and still works with business development and estimating the company’s largest and most complex new construction projects. Having developed strong relationships with GC’s, electrical contractors and end users, McMillan is very well known in the San Francisco Bay Area and has successfully completed projects throughout the US, Europe, South America and Asia.

Michael’s leadership approach is very simple, “invest in our people. My goal is for everyone in the company to develop to the point that they can take my position”. Having successfully taken tech’s from the field and hiring the right people and putting them in the right positons, McMillan has built a strong reputation for getting challenging projects done on time and plans to continue this into the future.

### Stuart T. Bostock

Security Centres International Ltd. | Group Chief Executive

Born in the Cayman Islands, Stuart's professional career started in Hospitality Management but took a drastic turn in 1992 when he took a role with a private ballistic testing facility in the UK. In 1994, Stuart moved back to the Cayman Islands to join the Royal Cayman Islands Police Force (RCIP) where he served until 2000 in various divisions covering Uniform Patrol, Special Crime Task Force, Serious Crime and Tactical Firearms Support Unit and the Traffic Department as a Motor Officer and Instructor. Stuart's training included tactical operations from the Los Angeles Police Department, London Metropolitan Police, New Scotland Yard, West Mercia Constabulary, British Military Advisory and Training Team and the United States Specialized Law Enforcement Training Commission. He also received several police commendations and awards for tactical operations, co-operation and professionalism in service.

In 2000, Stuart took on the role of Operations Specialist with The Security Centre Limited (TSCL) focusing on physical and perimeter security operations and management, aviation security and executive protection. He later appointed a Director of the Company and made Chief Executive Officer in 2003. In 2005, Stuart co-founded Security Centres International Ltd (SCI) to develop business opportunities across the Caribbean and Latin America. In 2015 Stuart became the Managing Director of TSCL, dropping day-to-day operational responsibility for the Cayman Islands business whilst retaining strategic oversight of the Company's plans and growth. Stuart is now the full time Group CEO with a greater focus on development, strategy, partnerships, relationships and new market entry across the Caribbean, Latin America and the United States. Stuart splits his time between the Group's International Headquarters in the Cayman Islands and the USA headquarters in Chattanooga, Tennessee.

### Bill Bozeman, CPP

PSA Security Network | CEO

Mr. Bozeman has 37 years of experience in the security systems integration business and with a successful track record in both corporate and entrepreneurial environments. He has served as president of Delta Audio-Visual Security, president of Dictograph Alarm Systems Inc. and vice president of strategic alliances for Pinkerton Systems Integration. Mr. Bozeman attended Louisiana State University and graduated from the University of New Orleans. He also qualified as a Certified Protection Professional (CPP) with the American Society for Industrial Security. Throughout his career, Mr. Bozeman has directed sophisticated electronic security projects for corporate America, the U.S. government, and private institutions. Mr. Bozeman is a member of the Security Integration Hall of Fame, a lifetime achievement award that recognizes those individuals whose distinguished careers have helped shape the electronic security industry. Mr. Bozeman was recognized as one of the 25 Most Influential Security Executives and received the Paul Marcus award, presented to individuals that provide consistent leadership and direction to the PSA Security Network. In 2013, Mr. Bozeman received the George Lippert memorial award, recognizing outstanding contributions to the Security Industry Association (SIA). Mr. Bozeman currently serves on the board of directors for Northland Controls and serves on various industry advisory boards.

### Jim DeStefano

Unlimited Technology | Sr. Vice President

Jim (“Jimmy D” as he is known in the industry) brings 30+ years of security experience to Unlimited Technology and is well versed in all aspects of security. As an integrator for 10+ years, Jim enjoys being able to share his knowledge and experience with security professionals around the globe. Jim has helped many Fortune 100/500 companies transform their security programs by providing the right solutions and services to meet their particular security and business needs and objectives. Jim has worked with customers in all different disciplines including Critical Infrastructure, Government, Corporate, Education, Manufacturing, Industrial, Healthcare, Data Centers, Air and Sea Ports.

Jim has held multiple positions in his career, including one in Law Enforcement, as well as Global Director of Security for 2 large financial organizations, transforming their security teams into profit centers with world class operations, handling everything from physical security to international security, fraud, loss prevention, executive protection, disaster recovery, business continuity, central station operations to full inhouse technical installation and service teams.

Jim is well known in the security industry has held several key security industry organization positions, has published a number of security articles and given numerous security related speeches to peers and others. Jim holds a BS degree in Administration of Justice from The Pennsylvania State University.

### Mike Kobelin

Tech Systems, Inc. | Western Regional Director

A nationally recognized veteran & leader in the security industry, Mike Kobelin has over 30 years of frontline experience. Throughout his career, Mike has successfully developed and maintained relationships, while providing electronic security solutions, with many Fortune 1000 clients.

His career began with Oregon-based Selectron, Inc, where he spent 25 years in various roles as Sales and Marketing Manager, Vice President and eventually President. Mike led Selectron through multiple phases of new technology developments, while serving several dealer advisory boards, which included working with Westinghouse Security Electronics (formerly Schlage Electronics), Software House, and Panasonic.

Much of his industry know-how came from his time with Aronson Security Group (ASG), nationally recognized as a Top 10 systems integrator in the US. Mike worked directly with end-user clients to identify security risks and engineer effective solutions. Mike joined ASG's executive management team as the Vice President of Sales and Marketing after the merger between Selectron and ASG in 2008.

While with ASG, Mike also served as regional director and Vice Chairman at PSA Security Network, the world's largest security cooperative. He then went on to become PSA's Chairman of the Board. It was through his PSA relationships that Mike developed a vast network of industry friends and associates. Additionally, Mike has served as Chairman of the Portland ASIS chapter and has been a frequent participant on security panel discussions at ISC and PSA events.

In 2015, Mike joined Sharp Electronics Corporation as the National Sales Director for their robotics division, offering new technology solutions to the security industry. Mike was responsible for building and managing a team of technology partners, security system integrators, and guard services companies to deploy emerging products and services from Sharp. Unfortunately, after three years of effort, Sharp decided to halt the robotic program.

### Brendan McFall

Northland Controls | Lead Technical Project Manager

After graduating St. Mary's College of Maryland, Brendan McFall "stumbled" into the security industry. Brendan's career began in 2014 as the Executive Assistant for Northland Control's CEO, Pierre Trapanese. Over the last five years, he's taken on a number of different roles at Northland, most recently becoming the Technical Program Manager of their Professional Services Department. Outside of Northland, McFall remains active in the wider Security Industry, and is passionate about helping young professionals advance in their career. In 2018, he served as the Chairman of SIA's Rise Committee, and joined PSA's Leadership Committee in 2019.

### Nigel Waterton

Aronson Security Group | Sr. Vice President of Corporate Strategy & Development  
Nigel leads a cross-disciplinary team within ASG as well as with ASG's strategic partners to identify the key areas of optimization and innovation needed to deliver value to ASG clients. This translates into a security roadmap that infuses and informs the operational resilience of any organization. He guides the value proposition that ASG's professional services, engineering, implementation, and performance management teams fulfill.

One of Nigel's key roles is understanding the next phase of ASG's growth: the geographic and vertical market strategies that expand ASG's footprint. He is also responsible for leading the benchmarking of ASG's technology partners so that clients are assured of quality products that are aligned with their organizational needs. Nigel has been involved in the Security Industry since 1996.
