

February 20, 2020

Dear Valued Customer:

The recent outbreak of the coronavirus in China to date has not caused any disruption of delivery of products or product components. However, there are products and product components made by our supply partners that have suppliers in China.

Boon Edam has been monitoring the events and are in continuous contact with our supply partners. We are managing potential impacts as we are notified of them on a case-by-case basis to eliminate or minimize any affects. To date, we are not aware of any major impact from delays related to the coronavirus that the team has not already taken action on to mitigate the risk.

We will continue to monitor the conditions and will remain in contact with our suppliers on a continuous basis to identify and reduce the risk. This Information could change in the future depending on the ongoing nature and the potential spread of the virus. If any information changes, we will update our customers as soon we have exhausted our options to mitigate the risk and avoid any delay in deliveries.

Sincerely,

Sandra Williams

Supply Chain Manager
